

Present: Coleman, Drumm, Hall, Kuhn and, Pyke. Graves was excused. The President stated that CBIA, Inc. had been invited to send a representative to attend this meeting but had declined.

Minutes: Minutes from the meeting on August 2, 2013 were approved and will be posted on the website.

Finances: Financials were reviewed for the period ending September 3, 2013. No major issues were identified.

Legal Update: The various Trustee responses to the discovery requests in the Dueck, et al. v. Clifton Club, et al. lawsuit have now been produced and our counsel is waiting on plaintiffs' counsel to approve the application to the court for the website posting of the document responses. The mediation proposal is on hold.

Maintenance Projects: The southern and western borders of the Pump House property were surveyed last month, and encroachments by neighbors on Trust property on both borders were identified; a map was produced, marked to show the Trust property lines and to show where a fence on the two borders might be installed. Following the meeting, the Trustees walked the survey lines, and agreed to take no action on the Weber property encroachments identified in the survey on the southern border because they have existed for at least 75 years. Bids on fencing will be obtained. The new fence on the west side will re-establish the Trust property line.

Kuhn, the Trustees' representative on the Playground Committee, reported on the Committee meeting the previous evening at which an analysis of the existing conditions and a series of improvement action recommendations was presented and discussed. The proposal to purchase a pirate ship kit and assemble and install it at the north end of the playground was endorsed by the Committee in principle. The Trustees look forward to receiving the final recommendations of the Committee.

It was noted that CBIA, Inc. had launched a survey of Park residents regarding grill preferences without consultation with the Trustees.

The Trustees approved the Memorandum of Understanding between the Trustees, the Clifton Lagoon Trustees and the City of Lakewood regarding the Clifton Lagoon Trustees' renting of a dock to the City for its Fire Department emergency rescue boat and authorized Hall to enter into it on behalf of the Trustees. The Trustees also discussed trash can replacements, the Grove Improvement Project and a blocked storm sewer.

Friends of the Beach: Jennifer Scott joined the meeting to review the projects being considered by the FOB. The FOB will be co-sponsoring a clambake on October 18.

Next Meeting: October 11, 7:30 am, at the Beach House.
