

Present: Coleman, Drumm, Hall, Kuhn , Pyke and Graves

Minutes: Minutes from the meeting on May 2 , 2014 were approved with corrections and will be posted on web site.

Finances: Financials were reviewed for the period ending June 4, 2014. No major issues were identified. 9 park residents are delinquent on their assessments as of June 4, 2014.

Legal Update: The Trustees reviewed a decision of the Ohio Unemployment compensation review committee regarding a 2013 part-time employee, and determined not to appeal the decision. The Trustees discussed several litigation matters.

Tony Pietromica stopped into the meeting briefly to give a short update on the playground and noted some final maintenance items to be finished. The Trustees congratulated him on all his efforts in the spearheading the playground improvements. He excused himself from the meeting.

Kuhn was excused from the meeting at 7:30 a.m.

Maintenance:

Steven Weber, a Lagoon property owner, joined the meeting at 7:30 a.m. to discuss the letter agreement required by the City of Lakewood in order to issue a permit to install a fence along the common property line between the Webers and the CPT's pump house and corral. The Trustees and Weber walked the project area and continued the discussion. It was agreed that the fence along the "upper dock" (approximately 48 lineal feet) would be installed on posts in the ground rather than onto the brackets attached to the bulkhead, as the bulkhead had shifted and the brackets were out of alignment, and that the fence would be board on board rather than solid one sided, in order to reduce the wind load stress on the lower dock where brackets mounted to the dock structure will be used. A revised letter will be presented to Weber for signature.. Weber was excused from the meeting.

CPT discussed the condition of the tennis courts. A Clifton Club member had previously sent an email to CPT detailing various ways to improve the tennis courts. Hall will communicate with the member to get a proposal together for CPT to discuss.

The CPT President received a letter from CBIA, Inc. stating CBIA, Inc. would like to purchase 2 new grills of different sizes as a test trial for the beach. CPT will respond back to CBIA, Inc. that they would like to go ahead and test these new grills and remind them that when installed the grills will be property of the CPTs.

CPT reviewed the proposal from Shoreline Contractors, Inc. to repair 150 ft. of bulkhead along the river where a large sink hole has formed. The cause of the sink hole is believed to be the result of the original engineering design which specified alternating 15 and 20 foot deep sheet piling with the bottoms sunk into the silt of the riverbed rather than being pounded to bedrock resistance at 22-feet deep. The combination of winter ice flows and heavy spring rain scoured the re-

maining silt away down to the shale bedrock 22 feet deep. Thus the sheet piling is alternating 5 and 7 feet too short and has allowed the formation of the sinkhole. Similar repair was required on approximately 118 lineal feet of bulkhead at the entrance to the lagoon in 2007. CPT approved this proposal as Shoreline was the original contractor for the river front bulkhead, had done the 2007 repair, and has done bulkhead work for the Lagoon Trustees along their docks. It was determined that having another contractor involved in bulkhead work may cause problems that can be avoided by continuing to use Shoreline.

Next Meeting: Friday July 11 7:00 am at the beach
