Background: Drainage-Retaining Walls-Road Repairs

Development Process

- 2019 – Initial Engineering
 - Hire engineering firm, survey site
 - Define the technical requirements for scope and cost estimates
- 2020 – Prep and Planning
 - Engage commercial plumbers to clean sewers, inspect (with video cameras) the system, document locations, and report
 - Develop a phased construction plan based on findings (sewer priorities, walls, road, etc.)
- 2020-2021 - Construction
 - Drainage project, retaining walls
- 2022 – Construction
 - Shocrete wall with anchors (upper Beach Road)
 - Beach Road resurface project

Financial Recap

- The Trust's cash reserve to manage seasonal cash management for LT/Capital Maintenance is back to historic strength.
- There are no *excess reserves*, only timing differences between assessments and actual construction work (permits, contractors, normal delays, seasonal conflicts)
- We will continue to provide periodic updates on the Major Capital Maintenance projects as they develop.

11

11

Legal Update

- Lawsuit filed in July 2020
- Motion to dismiss filed by the Trustees – awaiting Court ruling
