

Meeting Minutes - Clifton Park Trustees Meeting, Friday June 28, 2024

Present – Trustees McCaffrey, Coleman, Fraser and Meany in addition to Secretary Graves. Trustee Seibert was excused and was not present.

Minutes – The minutes from the meeting held on May 31, 2024, were approved with edits electronically and will be posted on the web site.

Financial Review – Due to Trustee Seibert's absence, the current financials were not discussed at this meeting. The secretary noted that 2 park residents are delinquent on their park assessment and have been sent letters noting that liens will be filed if the park assessment is not paid by June 30, 2024.

New Table Reservation System – Trustees Meany and Fraser met with the guards to train them on the new reservation system. A list of existing 2024 picnic table reservations will need to be entered into the new system prior to the launch.

Report on Major Projects and Maintenance –

- Trustee Coleman will contact contractor Nielsen as to the status of proposed work to be completed on the north beach house doors and the paddle court gazebo roof.
- Tennis courts – The project will be completed this year, but the courts will likely not be playable before the end of the beach season due to the required curing time between surfacing and painting.
- No new report on the riverfront bulkhead. The Trustees discussed an end of season correspondence to Lagoon residents regarding use during the 2025 season.
- Trustee Coleman met with an electrical engineer at the beach regarding the design for the drainage, boardwalk, lighting and paving of Beach Rd projects. Once these are finalized, these projects will be sent out to the appropriate contractors for bids.
- The maintenance supervisor was contacted by a member of CBIA as to his interest in assisting with the construction of new Adirondack chairs for the beach. The Trustees are considering his role in this project.
- Stones that are cleared from the beach by the beach rake are being deposited at the east end of the beach on CPT property. The secretary will advise the maintenance supervisor to spread them out using the tractor and to also place some in the swale in the grove.
- Hot water in the men's and women's showers will be inspected and if not working, the plumber will be called to repair this issue.

Legal Update – Plaintiffs are appealing the Probate Court's decision in favor of the Trustees. Final briefs will be filed in August.

Miscellaneous Accounting – CPT will confirm with former Friends of the Beach members that the current funds held in First Federal of Lakewood were collected for the purpose of new lighting at the beach.

18169 Clifton Rd has been sold and all liens have been satisfied and recorded with Cuyahoga County.

Next Trustee Meeting: Scheduled at the Beach at 7am on Friday, July 26, 2024.

Meeting adjourned at 8:10 am
