Financial Review – The Trustees reviewed the cash flow and current balances for the year to date ending July 26, 2024. It was noted that seasonal beach cleanup expense increased because an outside contractor was hired to assist during the maintenance supervisor transition.

New Table Reservation System – The website designer is performing final testing of the new table reservation system. The Trustees will launch the system when testing is complete.

Report on Major Projects and Maintenance – The tennis court rebuild is scheduled to begin in early August.

Legal Update – Plaintiffs appealed the Court's decision in favor of the Trustees. There are no additional rulings from the Court of Appeals.

Guards- The Trustees will communicate to the guards that all members and guests of members should be treated respectfully, even when reminding them of the rules.

Stones at east end of the Beach –Stones collected by the beach rake are routinely emptied and dumped at the east end of the beach. The adjacent homeowner can view the accumulated rocks from the back of his property and would like them removed. Trustee Coleman will speak to the park resident to discuss a next course of action.

Lagoon personal items on Trust property – A Lagoon resident emailed the Secretary inquiring about the possibility of improving the grass along the river by resodding it in front of 5-6 homes at the homeowners' expense. The Trustees do not object. On a related matter, CPT discussed the idea of placing 3 picnic tables on the riverfront grass for beach members' use. The Trustees will share information with the Lagoon residents about this plan, as it may influence whether they want to proceed with resodding.

Beach Maintenance Supervisor Report – Gordy Harwood joined the meeting at 7:45am. The Trustees discussed his current work schedule and the possibility of him doing limited projects over the winter months. Harwood was excused at approximately 8:15am.
